

## Billing Information

At American Integrative medicine, LLC, our fees are based upon Medicare 2002 reasonable and customary standards. It is our AIM to keep you healthy, not worry about your bills. We strive to give you excellent care at very reasonable prices. We understand the cost of living, and have done our best to minimize costs and therefore keep our prices low. We do not accept medical insurance as payment, but will supply you with a “Super Bill”, CMS1500 which you can bill directly to your claims department at your medical Insurance Company. This “super bill” will contain all of the pertinent codes and fees required by the insurance company for proper billing. This “super bill” is what the typical medical offices use to bill medical insurance companies. Most insurance companies will reimburse some if not all the office visit. But, not all insurance companies will cover Medical Acupuncture, Integrative Medicine consultations, and, or Osteopathic Manipulation. American Integrative Medicine will not bill or resubmit denied claims. It is the patient’s responsibility to verify coverage, submit and collect reimbursement.

It is our pleasure to help you feel better and it is our **AIM** to keep you healthy!

If you have additional Medical Insurance questions, Mrs. Jessica Koprowski is available to assist on Fridays, between the hours of 9am-4pm, at (440) 882-3231.

Have a blessed day!

Barbara L. Bakus, DO, Ltd.
